

**IN THE CLAIMS:**

This listing of claims will replace all prior versions and listing of claims in the application:

1. (Currently Amended) An outside rear view mirror fixing structure for a vehicle comprising:
  - a base hinged to a mirror housing and formed with a plurality of female screws;
  - a base cover encompassing an external side of the base;
  - a quadrant panel formed with a plurality of bolt fastening holes at positions corresponding to said plurality of female screws and equipped with a clip fastening hole;
  - a clip integrally formed on said base cover and at a position corresponding to said clip fastening hole ~~of said base cover~~ to provisionally fix said base to said quadrant panel.
2. (Original) The structure as defined in claim 1, wherein said clip is formed at a free end thereof with a hollow part and is externally formed with a hitching jaw and is axially formed with a plurality of grooves.
3. (Original) The structure as defined in claim 2, wherein a peripheral surface of said clip is so formed as to have the same diameter as that of said clip fastening hole.
4. (Original) The structure as defined in claim 3, wherein said clip is made of soft plastic.
5. (Currently Amended) An outside rear view mirror fixing structure for a vehicle comprising:
  - a base hinged to a mirror housing configured and dimensioned with a coupling;
  - a base cover encompassing an external side of the base;
  - a fastening hole positioned corresponding to said coupling and equipped with a clip fastening hole; and
  - a clip on said base cover and positioned corresponding to said clip fastening hole ~~of said base cover~~ to provisionally fix said base at said fastening hole.
